Rules for dogs

Dear guests of the Camping Miralago Resort with four-legged friends,

as a result of various incidents, observations and complaints from guests without pets, the campsite management feels compelled to formulate more precise rules for the smooth and easy coexistence between pets and humans.

The following rules are to be strictly adhered to by owners of dogs of all sizes. Equally, those same rules are an integral part of the general rules and regulations of the Camping Miralago Resort.

1. On the whole area of the campsite, **dogs are to be held on the leash or thus fenced in** as to be confined to the area of the pitch itself. They are meant to behave **as quietly as possible**. They are not allowed to do their business on the pitch itself.
2. When you leave the pitch with your dog so that it may do its business, it is to be held **on a short leash**, i.e. **not more than 1.5 m long** (about 5 feet), and **led directly** to the dog beach or out of the campsite area, **using the central sections of campsite paths and roads only**.
3. In no case are urine-marking and /or fouling permitted on **common areas or pitches situated alongside campsite roads and paths**.
4. **Letting your four-legged friends run freely is solely and exclusively allowed on the dog beach and on the newly created dog playground**.
5. Taking your dog to the beach chairs on the **common areas behind the dog beach and the villa** is allowed, but only on a short leash and taking a direct route there (see point 3). Once arrived, the dogs are to be held on the leash and should remain quiet.
6. Several containers for dog excrement complete with poop bags are available on the premises. On the whole area of the Camping Miralago Resort it is mandatory **for the pet owner to collect the dog's excrements**. If the dog has a problem with diarrhoea or thin stool, cleaning the area concerned with enough water is a duty for the owner.

We kindly ask dog owners for their understanding with respect to these specific rules, but do hereby also stress that repeated violation of those rules can lead to removal from the campsite.

Camping staff or affected guests are requested to report any breaches of these rules and regulations at the reception desk.

The Camping Miralago Resort is hoping for your kind understanding in this matter and wishes you an unforgettable stay together with your four-legged friends.
